Mechanical Seals & Packing • DynaPro SealPlus • Maintenance Products
Boiler Products • Hydraulic Seals • O-rings • Gaskets
PANSEAL™ Multi-Component Epoxy • Flexkrete Concrete Repair System
Seal-Once Waterproofing • Polyval Moisture Cure Polyurethanes

SEALPRO Inc. of Manchester NH. has been in business for over 30 Years. We are a MRO boiler products, Mechanical Seals, Gaskets, Packing supplier and provide quality coatings for Concrete as well as secondary containment. As always we've been hard at work seeking out the best and safest products for all your Industrial coating and waterproofing needs. With the help of Emmanuel Hudon our application manager, we have redeveloped our coating application division at Sealpro Inc.

Our emphasis is on these major products:

- **Flexkrete Concrete Repair System:** for repair of concrete spalls, steps, walkways, loading docks, warehouse floors, ramps and parking decks. Flexkrete is fast setting, long lasting and has a 10,000 psi compressive strength within an hour.
- **Seal-Once Waterproofer** for concrete, masonry & wood: **eco-friendly, water-based deep** penetrating formula, 0 VOC's, Non-Toxic, Building Green Inc. certified and used to waterproof masonry buildings, pool decks, walkways, parking garages, above grade concrete and all types of wood. Seal-Once prevents mold and mildew and is resistant to salts and chlorides.
- **Polyur Moisture Cure Polyurethane:** one component, providing high performance properties for outstanding corrosion protection and long service life. Use on rusty metal surfaces and concrete floors. Top Coats available in many colors.

Our focus is on smaller jobs that may require two to three applicators that larger contractors have no interest in doing.

All these products can be purchased through Sealpro for your own personnel to apply. We can provide in-house training if needed. Please call Hank or Lee at 800- 732- 5776 with your questions, to request a quote or to place an order. We appreciate your past business and are thankful for your loyalty over the years. Without you we would not be here. Sincerely yours,

Hank Croteau
President
